

MADE IN THE USA,

PLAYED ON WORLDWIDE™

SNAPSPORTS®
ATHLETIC SURFACES

> ***As the President and CEO of United States Futsal, I am proud to say that our partnership with SnapSports is well into its fifteenth year. Each year SnapSports continues to prove that they are the industry leader in athletic surfacing, designing and manufacturing cutting edge products that far surpass the competition.***
>
> *~ Alexander J.C. Para – President & CEO, United States Futsal®*

INDOORS OR OUT, SNAPSPORTS® IS THE ATHLETIC SURFACE FOR YOUR FACILITY

Three generations of continuous innovation, design, and product development have made SnapSports Athletic Surfaces the clear industry leader. With patented performance, a **16-year warranty**, and safe play technologies such as ShockTower®, TuffShield®, BounceBack®, ReactivePlay®, and dozens more, there's no other modular sports flooring system that delivers this level of quality, durability, safety, and performance. SnapSports Athletic Surfaces are tested in the lab and proven at the highest levels of athletic competition. Whether for a weekend tournament or for decades of competitive play, SnapSports delivers.

SnapSports Athletic Surfaces are a great choice for the following facilities:

- Schools
- Family Life Centers
- Multi-Activity Centers
- Rehab Clinics and Hospitals
- Sports Training Facilities
- Arenas
- Parks
- Churches
- Recreation Centers
- Sports Camps
- Military
- Private Athletic Clubs
- Exposition Centers
- Gyms

"41 full court basketball games going on at one time. In the Guinness book of world records, most gyms under one roof. 520 teams, 1100 coaches, 180 officials, 13,000 spectators, over 5,000 Athletes. We're using SnapSports Flooring."

~ Matt Williams – Governor, AAU Pacific District

Basketball Courts

Player performance, ball response, and safety are all incorporated into the design of our basketball surfacing. Professionals and amateurs alike know that when the game is on, they can expect performance from SnapSports.

Volleyball Courts

Our volleyball courts have proven themselves time and again as safe, high-performance surfaces. The official flooring of the **Big South National Qualifier**.

Futsal Pitches

SnapSports surfaces are **United States Futsal Federation** approved and have appeared in many national and international tournaments.

Tennis Courts

Our **ITF certified fast** tennis courts provide paramount ball performance, never crack, and are virtually maintenance free.

Pickleball Courts

Maximize court usage by offering a variety of racquet sports—SnapSports surfaces are great for paddle tennis, pickleball and more!

Inline Hockey Rinks

Our amazingly fast surfaces provide plenty of action and are a popular choice for recreation centers that require a long lasting floor for roller sport activities.

Multi-Courts

If you're hosting a basketball game one day and a tennis tournament the next, SnapSports Multi-Sport surfaces are up to the challenge.

REVOLUTION®

Revolution with light maple TuffShield® in a basketball and futsal facility

Key Benefits

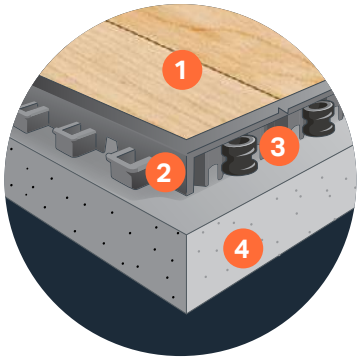

- Top rated high-performance athletic surface
- Patented **ShockLock®** system absorbs lateral impact
- Unaffected by moisture, humidity, or temperature
- Suitable for multiple sports and activities
- Create a new floor or retrofit most gyms in 24 – 48 hours
- Low annual maintenance
- **Vertical and lateral shock absorption** for player safety
- Free-floating surface is portable or permanent, no adhesives or anchoring required
- Over 20 colors available

Options

- **ShockTower®** high-performance suspension
- Light maple, dark maple, or transparent TuffShield finish
- Parquet pattern
- Custom logos and graphics
- CourtKeeper™ cushion/acoustic mat

Specs

Dimensions: 12" x 12" x 5/8" *(305 mm x 305 mm x 16 mm)*
Weight: 15 – 25 oz. *(425 – 709 g)*
Material: High impact copolymer
Friction: 0.77 Dry *(ASTM C 1028)*
Ball Rebound: 19 – 23% *(EN 14904)*
Force Reduction: Class 1/ Class 2 *(ASTM F2772)*

- **All-weather courts** for year round use
- Low initial investment and annual upkeep costs
- Covers unsightly cracks, stains, wear, and puddles
- Free-floating, no anchors or adhesives required
- Multiple color and design options
- Custom logos, graphics and line designs available
- 16-year warranty
- Recyclable

"SnapSports helped us put together a first-class sport facility at the University of Wisconsin-Richland. Their service and commitment to the project were second to no contractor that I have dealt with in my tenure as Athletics Director at UW-R. (SnapSports) dedication to producing an end product that performed well and made us happy shows the company's character."

~ Gail Hoffman – Athletics Director at UW-Richland

"I left school on Friday night after the game and when I returned Monday morning we had a new beautiful gym floor. I could not believe the transformation over the weekend. The best thing about it was we didn't have to cancel P.E. classes or the JV game on Monday."

~ Mike Smith – Head Basketball Coach at Summit High School

SnapSports Exclusive!

SHOCKTOWER®

Patented **ReactivePlay®** technology gives an added level of *"cush"* to reduce impact on joints and limbs, letting you play longer today and for years to come.

Provides polished and professional look without paint or decals. An easy to clean surface, resistant to petroleum products and most chemicals. Available in transparent, light; dark; and gray maple, and halo colors.

The ShockLock system lets individual modules slide, but keeps the entire sport surface fully interlocked. This built-in *"give"* eases player joint impact and creates a safer athletic surface.

Full Suspension System

Understructure performs as a high impact shock absorber that reduces fatigue and injury to athletes. Each square foot weighs in at over one pound, stands ¾" tall and contains nearly 1200 shock absorbing support towers.

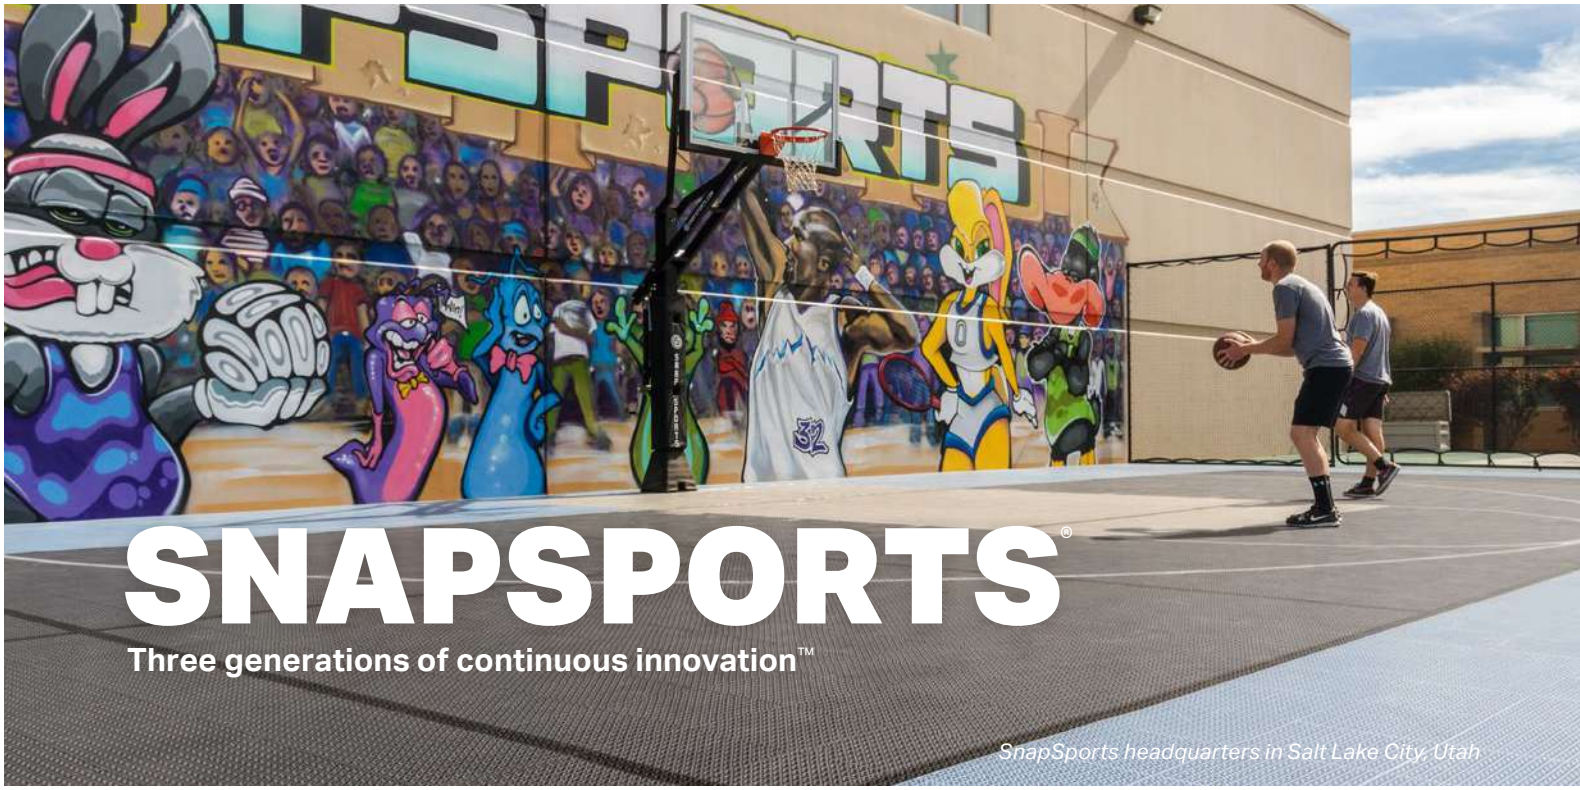

PowerLock®

Engineered to handle heavy loads the patented PowerLocks become part of the understructure when engaged. Multi-patented Step-N-Snap design makes for no tools, no glues, and no toxic fumes.

Court Keeper

This vinyl based solution allows the concrete to breathe while providing better force reduction and ball performance than, odorous recycled rubber.

SnapSports headquarters in Salt Lake City, Utah

From The Family That Created An Industry

The family of SnapSports created an industry over four decades ago. We are the originators of the outdoor backyard court industry you see today and the world's leading manufacturer and supplier of premium modular sport flooring for residential and commercial applications.

With SnapSports you can be assured you are getting the most advanced modular sports surfacing and sports components available on the planet. Our multi-patented and patent pending modular sports floors are top rated in the industry for performance and safe play.

Headquartered in Salt Lake City, Utah—SnapSports manufactures at their 150,000 square foot **ISO 9001:2015** certified facility, and is supported by an authorized global network. Unlike most other companies in the industry, SnapSports is completely in-house from design and engineering, to manufacturing all of our flooring products, to our expert authorized court building dealer network, who offer turnkey installations. We are proud to be a **100% American-made** modular sports flooring company.
